

Prof. C. D. Cleveland

Phil^a June 30/46.

and M'pouri.

The results of the Assembly will
doubtless be ^{for} good - for great good.
I do not see Conwell's paper, but
Mr Landis writes me that he is
turning it to ball ends, as usual;
but that he means to arraign him
for his course. It will do no good.
If Barnes and others who feel with
him, ~~would~~ had energy & spirit,
they would set up a new paper.
I thank you kindly for the Conanti-
patos. I got a few more from
Mr Landis.

Give my kind regards to your
wife.

Affectionately yours
C. D. Cleveland

Phil. June 30. 1846

My dear brother

72

How do you do, and what are you about? Are you preparing the statement in Torrey's case? I have now \$355. 60 in bank, & I hope to get one hundred more. The coloured people move slowly. I have not heard at all from Dr. Lemoyne, nor from Kenneth Lyman. I want to see you, and talk with you, and will do so in two or three weeks, God willing. Mrs C. was very very ill - but is now getting better slowly, and as soon as she can go I want to get her in the country. Let me know particularly about your health.

I send you a circular about the German Almanac. It will go; & I have written to Mr Tappan for some names in Wisconsin, Iowa,
